The same figure has been put twice in the published article. The Figure 6 was the right one. Figure 7 had to be:

Fig. 7. State-to-state hyperfine cross sections for spin-orbit conserving collisions of OH($X^2\Pi_{1/2}$, $v = 0$) and He. The initial and final levels are $j = 1.5f$ and $j = 1.5e$, respectively. The initial and final F quantum numbers are shown in the graph.
